

SAFETY

SAFETY IS OUR TOP PRIORITY

Every Over The Edge (OTE) event is set up as an industrial worksite and as a result, is compliant with all federal and state OSHA Fall Protection Standards and OSHA Federal and State Laws. Further, our policies and procedures adhere to the best practices identified by SPRAT. This counsel is a strict regulatory body that has regimented guidelines and safety protocols that far exceed the OSHA, Workers Compensation and state labor codes. OTE has an impeccable safety record.

OVER THE EDGE STAFF

All Over The Edge sites have highly trained industrial rope specialists, all of which are IRATA or SPRAT certified. Each event site has a comprehensive Site Inspection & Safety Plan completed, and if every potential risk cannot be mitigated, then the site will simply not be approved by our Operations Manager.
